#### DEPARTMENT OF AGRICULTURE, BENGAL.

#### Preliminary Forecast of the Bhadoi Crops of Bengal, 1921-22.

(Nore.—On an average of the five years ending 1919-20, the area under autumn rice in Bengal has represented some 6'3 per cent. of the total area under rice in British India.)

Character of the season.—At the beginning of the season the weather was generally favourable for the preparation of the land. In the first half of March, however, wet weather somewhat interfered with the sowings of the crops in the eastern and northern districts, but the dry weather which followed until the first week of April enabled a larger area to be brought under cultivation in those districts. In the western districts, on the other hand, insufficient rain in March and in the middle of April generally hampered the sowing operations, with the result that the area under cultivation has been reduced. The rainfall in May and June was below the normal

throughout the Presidency, and the growth of the crops was affected especially in the western districts. The early rise of rivers in June and excessive rain and floods in July considerably damaged the crops in the low-lying tracts of North and East Bengal. But for the damage caused by floods the outturn of autumn rice would have been a highly satisfactory one.

Acreage.—The total area sown with the different bhadoi crops this year is reported to be 6,393,500 acres as against 5,922,000 acres and 5,939,400 acres (revised), respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,542,200 acres this year as against 5,088,200 and 5,113,600 acres (revised) in the corresponding and final forecasts of last year.

The increase in area is attributed mainly to decreased cultivation of jute

and to the high price of food-stuffs.

Outturn.—According to the district officers' estimates, the outturn of the different bhadoi crops for the province works out to 81 per cent. of the normal against 84 and 86 per cent. reported, respectively, in the corresponding and final forecasts of last year. Autumn rice, the most important of the bhadoi crops, shows an outturn of 81 per cent. of the normal for the province this year against 85 and 86 per cent. in the corresponding and final forecasts of last year.

G. EVANS,

Director of Agriculture, Bengal.

DACCA;

The 28th September 1921.

## DEPARTMENT OF AGRICULTURE, BENGAL.

# First Forecast of the Winter Rice Crop of Bengal, 1921-22.

[Note.—On an average of the five years ending 1919-20, the area under Winter Rice in Bengal has represented some 19-7 per cent. of the total area under rice in British India.]

Character of the season .- Pre-monsoon showers were generally suffieient for the preparatory tillage. Rainfall in May and June, though below the normal, however, allowed sufficient moisture to be retained in the soil. Consequently the sowings of broadcast paddy which commenced at the usual time finished favourably especially in the eastern and northern districts. A full area was, therefore, sown with this variety. During the early period of the monsoon, drought prevailed in the western districts and paddy seedlings suffered in the high land tracts. As a result also transplantation in those tracts proceeded slowly during July, but good rainfall in the end of August facilitated operations a good deal. In the eastern and northern districts, on the other hand, abundant rainfall during these two months enabled a large area to be brought under cultivation. Some damage to broadcast paddy was caused by excessive rain and the sudden rise of rivers in certain low land tracts of North and East Bengal. The present outlook is, so far, satisfactory, on the whole.

Acreage. According to the figures returned by district officers the total area under the winter rice crop is 15,187,000 acres, as compared with 15,319,500 and 15,313,800 acres in the corresponding and final forecasts of last year. The decrease is to be attributed chiefly to want of rain at sowing

time in the western districts.

Outturn .- From the summary of the district returns appended it will be seen that six districts expect a normal crop, seventeen districts report a crop between 73 and 99 and the remaining four districts return between 58 and 70 per cent. of the normal. According to the above estimates, the provincial outturn works out to 88 per cent. as against 83 and 87 per cent. of the normal respectively in the first and final forecasts of last year.

G. EVANS.

Director of Agriculture, Bengal.

DACCA, The 28th September 1921.

### APPENDIX I.

### First Forecast of the Winter Rice Crop of Bengal, 1921-22.

It was retarded to some extent owing to ceaseless heavy rain and flood in July. Subsequent weather has been fair. The cutturn is expected to fall below the normal owing to damage by flood to lowland crop  |
| Darjeeling                 | 65,200                            | 25,800                  | 24,600                    | 92          | . 83  | April; nor s                    | lst week of July  | The decrease in area is due to excessive<br>rain. The weather has not been favour-<br>able owing to incessant heavy rainfall,<br>which has caused some damage.  |
| Rangpur                    | 827,300                           | a581,400                | 609,000                   | 81*4        | 93  | Middle of May;                  | Beginning of July ; normal.   | The increase in area is due to copious rainfall during the time of transplantation. The weather has been fairly favourable. Some damage has been caused to the crop on char lands. Want of rain throughout the month of August has caused the outturn to fail below the normal.   |
| Bogra                      | 303,000                           | 445,000                 | 448,000                   | 80          | 70<br>m   | March; normal                   | July; normal  | The increase in area is due to decreased cultivation of jute. The outturn is anticipated to be low owing to want of sufficient rain at the time of transplantation and thereafter. The recent rains have slightly improved the prospects.   |
| Pabna                      | 585,000                           | 401,600                 | 400,000                   | 83          | 67  | By the middle of April; normal. | By the beginning<br>September; nor-<br>mal.                         | Slight decrease in area was due to unfavourable weather as sowing time in the 3-ray gan j subdivision. The weather was not favourable at sowing time and during the period of growth owing to drought and sudden and untimely rise of the river Jamuus which is likely to reduce the outture.   |
| Malda                      | 326,500                           | 243,460*                | 206,200                   | <b>\$</b> 8 | 67  | Middle of July;                 | Beginning of<br>August; late.                                       |   |
| Dacca J                    | 647,900                           | 665,800                 | 703,900                   | 110         | 99  | End of March to                 | Late in July ; nor-<br>mal.   |   |
| Mymensingh                 | 1,455,500*                        | 919,700                 | 1,183,600                 | 90          | n   | April to June ; nor-<br>mal.    | July and August;  | The increase in area is due to adoption of settlement figures. The weather has been generally fair. Increasant rain at sowing time caused damage to the extent of 13 per cent. In Tangall the damage by flood is about 17 per cent. and in Kishorgani about a fifth of the crops. The autturn is expected to be below the normal owing to sudden rise of water. |
| Faridpur                   | 770,100                           | 745 200                 | 760,500                   | 100         | 19  | March and April;                |   | The increase in area is due to decrease in area under jute. The weather has not been favourable for the growth of the crop in the Goalundo subdivision. Some damage has been done by the sudden rise of water. Hence the outturn is below the no mai.   |
| Bakargaoj                  | 1,200,000                         | 1,310,100               | 1,1000,000                | ,100        | 100   | April and May ; normal.         | Middle of August ;  | The weather was not favourable at the begin-<br>uing for want of sufficient rain. Sobse-<br>quently the flood at the end of Joly has<br>damaged about four annas of the seedlings.<br>The broadcast paddy too is slightly<br>damaged. The present weather is fair and<br>the growth of the crop is fairly good.   |
| Chittagong                 | 418,400                           | 421,300                 | 421,800                   | 100         | 92  | May to July; nor-               | July and August;<br>normal.   | The weather has been seasonable and the growth of the crop fair.  |
| Tippera                    | 787,000                           | 787,000                 | 795,400                   | 63          | 83  | April; normal                   | August ; normal   | The increase in area is due to decreased cultivation of jute. The weather has been favourable. Slight damage has been done by flood and insect-pests, which has reduced the outturn.  |
| Noakhali                   | 705,000*                          | 630,000                 | 480,000                   | 100         | 100   | Ditto                           | July and August;  | The weather has been favourable and a   |

### DEPARTMENT OF AGRICULTURE, BENGAL.

## Second Forecast of the Sugarcane crop of Bengal, 1921-22.

[Note.—On an average of the five years ending 1919-20, the area under sugarcane in Bengal has represented some 8.4 per cent. of the total area under sugarcane in British India.]

Character of the season.—At the time of planting, the weather was unfavourable in the deltaic tracts owing to absence of rain, while elsewhere timely rainfall facilitated the operation. Insufficient rainfall in May and June considerably affected the growth in the Western districts, but the crop was not much affected in the rest of the Presidency. Subsequent favourable weather has, however, improved the situation. Damage by drought is reported from Murshidabad, Burdwan, Midnapore and Hooghly, and by heavy rain and flood from Jalpaiguri, Pabna, Faridpur and Bakarganj. Injury by insect-pests is reported from parts of Chittagong and Faridpur only. On the whole, the crop is expected to be fairly satisfactory.

Acreage.—The total area planted with sugarcane for the province this year is reported to be 220,600 acres against 219,500 acres and 218,800 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—According to estimates of District Officers, the provincial outturn works out to 83 per cent. of the normal this year against 90 and 88 per cent, respectively in the corresponding and final forecasts of last year.

G. EVANS.

Director of Agriculture, Bengal

DACCA,

The 29th September 1921.

### DEPARTMENT OF AGRICULTURE, BENGAL.

### Second Forecast of the Cotton Crops of Bengal, 1921-22.

[Norg.—On an average of the five years ending 1919-20, the area under the cotton crops in 1 engal has represented some 0.3 per cent. of the total area under cotton in India.]

THERE are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura, Midnapore and Mymensingh.

Character of the season.—The early crop, though it suffered in the early stages through absence of rain, has subsequently recovered, and its

present condition is reported to be fairly good.

The outlook of the late crop, so far, is reported as generally promising. Area sown.—The area sown with early cotton is reported to be 63,374 acres this year against 68,448 acres reported in the corresponding forecast of last year.

Of the late crop 1,110 acres are reported to have been sown up to date

against 307 acres reported in the corresponding forecast of last year.

G. EVANS,

Director of Agriculture, Bengal.

DACCA. The 29th September 1921.

#### RESOLUTION ON THE FIFTEENTH ANNUAL REPORT OF BENGAL SMOKE-NUISANCES COMMISSION PERIOD FROM APRIL TO DECEMBER 1920.

### GOVERNMENT OF BENGAL

MARINE DEPARTMENT.

CALCUTTA, THE-4TH OCTOBER 1921.

RESOLUTION-No. 3352Mne.

READ-

The fifteenth Annual Report of the Bengal Smoke-nuisances Commission for the period from April to December 1920.

The annual report of the Bengal Smoke-nuisances Commission used formerly to be for the official year. It was recently decided that the report should be for the calendar year. The present annual report therefore relates to the period from April to December 1920.

2. The Commission held nine meetings during the nine months under

review for the transaction of their business.

3. The number of observations of smoke emission taken was 7,514 as against 9,943, and the number of factories visited for instruction, etc., was

1,995 against 3,288 during the year 1919-20.

4. The average emission of the smoke of the controlled grades expressed in terms of scale 6 has been reduced to 1.22 minutes in the hour from 1.23 minutes in the previous year. This is the lowest average on record. The Commission's efforts to reduce offensive smoke from oil-burning steamers during their stay in the Port continued to produce good results. At the instance of the Commission certain improved arrangements were adopted on some of these vessels resulting in the material reduction of smoke as well as in the saving of fuel.

Owing to the high price of coal, there was a recrudescence of the wasteful practice of making coke from raw coal in open heaps on the ground. The smoke thus created being emitted in great quantities at ground level causes great damage to health and property in the surrounding localities. The Commission propose to deal with this evil in collaboration with the Commissioner of Police, Calcutta, and the owners of the grounds utilised for

the purpose.

5. Plans of 56 installations were examined and passed during the

period as compared with 54 in the previous year.

6. The number of complaints received from the general public was 48 against 58 in 1919-20. The Commission also dealt with many references from municipalities regarding chimneys, furnaces, etc. Offences were reported to owners of furnaces for departmental action in 707 cases with satisfactory results.

7. Statutory warnings were served in 15 cases, against 16 in the previous year. Only one prosecution was instituted as against 11 in 1919-20. This is the first time since the Bengal Smoke-nuisances Act, 1905, came into force that there was no prosecution of a factory. This result was achieved through the co-operation of the owners, the introduction of better installations and the general improvements in the system of working the furnaces.

8. The increase in the number of electric motors installed during the period under review is remarkable, being 318 against 168 in the previous year. A large number of gas appliances was also installed with a resulting

diminution in the amount of smoke emitted.

9. The report shows that the Commission are making steady and satisfactory progress in the reduction of smoke-nuisances, which is a matter of great importance to public health. It is gratifying to note that the activities of the Commission generally met with the co-operation and appreciation of the

public. The Governor in Council desires to thank the members of the Commission as well as Mr. Robson, the Chief Inspector, and his assistant for

their successful administration of the department.

ORDER.—Ordered that a copy of the resolution be forwarded to the Government of India, Department of Commerce; the Director of Industries, Bengal; the Commissioners of the Presidency and Burdwan Divisions; the Commissioner of Police, Calcutta; the Chairman, Corporation of Calcutta; the Chairman of the Commissioners for the Port of Calcutta; the Secretary, Bengal Chamber of Commerce; Master, Calcutta Trades Association; the Honorary Secretary, Bengal National Chamber of Commerce; the Chairman of the City Improvement Trust, Calcutta; and the Municipal Department of this Government. this Government.

Ordered, also, that the resolution be published in the Calcutta Gazette.

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal.

### DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 28th September 1921.

Summary.—During the week, moderate to heavy rain fell in the eastern districts; elsewhere the fall was generally light to moderate. Harvesting of autumn paddy is completed. Steeping and washing of jute are still continuing in places. Transplantation of winter paddy is over; weeding is in progress. Preparation of lands for rabi crops and sowing of pulses and kalai have commenced on high lands in parts of certain western districts. The average price of common rice for the province has fallen by about 1.34 percent. as compared with that of the previous week.

### The Board of Trustees for the Improvement of Calcutta.

Notice under section 43 of Bengal Act V of 1911.

Schame No. VIIIB (Extension of the present proposed Park in Scheme VIII) and construction of a 100 ft. road to the north of the Park joining the Circus with Darya Road.

THE Board of Trustees for the Improvement of Calcutta hereby give notice that a Street Scheme, namely, Scheme No. VIIIB (Extension of the present proposed Park in Scheme VIII and construction of a 100 ft. road to the north of the park joining the Circus with Darga Road) has been framed for the area bounded as follows:—

On the North-From a point on the north-east corner of the Darga at premises No. 15, Gora Chand Road, running eastwards along the southern edge of Gora Chand Road, to the north-west corner of premises No. 22, Gora Chand Road.

On the East—From this point southwards along the western boundaries of premises No. 22, Gora Chand Road, and premises Nos. 74, 73 and 72. Tiljala Road, and then to a point on the northern boundary of premises No. 21-1, Barga Road, about 85 ft. west from its north-east corner.

On the South—From this point westwards along the southern boundary of premises No. 22, Darga Road, to a point on the eastern edge of Darga Road. From this point north-westwards along the eastern edge of Darga Road to a point opposite Kasaipara Lane. Thence running westwards across Darga Road and along the northern edge of Kasaipara Lane to the south-eastern corner of premises No. 8, Kasaipara Lane.

On the West—From this point northwards along the eastern boundary of No. 8, Kasaipara Lane, and thence westwards along a portion of its northern boundary to a point on the south-west corner of premises No. 5-2, Gora Chand Lane. Thence along the southern and eastern boundaries of the same premises to a point on its north-east corner. From this point northwards along the western edge of Gora Chand Lane to a point on it about 38 ft. north from the south-east corner of premises No. 19, Gora Chand Lane. Thence eastwards across Gora Chand Lane and along the southern boundary of premises No. 7-1, Gora Chand Lane, and southern and eastern boundaries of premises No. 10, Gora Chand Lane, to its north-east corner. From this point across and along the portion of a drain to a point on the south-east corner of premises No. 16, Gora Chand Road. Thence running northwards along the eastern boundaries of premises Nos. 16, 14, 15, Gora Chand Road, to the starting point.

Particulars of the Scheme, a map of the area comprised in the Scheme and a statement of the land which it is proposed to acquire may be inspected at the office of the Trust, 5, Clive Street, on week days between the hours of 11 A.M. and 4 P.M., and on Saturdays between 11 A.M. and 2 P.M.

Copies of the above documents will be delivered to the applicants on payment of the following fees:-

|   | Rs. | A. |
|---|-----|----|
| Particulars of the Scheme                             | . 0 | 4  |
| Map of the area of the Scheme                         | . 1 | 0  |
| Statement of the land which it is proposed to acquire | 0   | 4  |

Objections to the Scheme will be received up to the 15th of January 1922.

C. H. Bompas, Chairman.

#### The Board of Trustees for the Improvement of Calcutta.

Notice under section 43 of Bengal Act V of 1911.

Scheme No. XX (Dharumtala Street to Corporation Street).

THE Board of Trustees for the Improvement of Calcutta hereby give notice that Street Scheme, viz., Scheme No. XX (Dharumtela Street to Corporation Street) has been framed for the area bounded as follows:—

On the North.—From a point on Dharumtala Street at the northeastern corner of premises No. 69, Dharumtala Street running eastward along the southern edge of Dharumtala Street to a point on the northwestern corner of premises No. 77, Dharumtala Street at its junction with Ram Chandra Das Row.

On the East.—From this point southwards running along the eastern edge of Ram Chandra Das Row and then crossing Corporation Street to a point at its southern edge about 7 yards from the north-western corner of premises No. 56, Corporation Street.

On the South.—From this point westwards along the southern edge of Corporation Street to a point about 8 yards from the north-eastern corner of premises Nos. 47, 47-1, Corporation Street.

On the West.—From this point northward running across Corporation Street along the western boundaries of premises Nos. 101 and 101-8, Corporation Street and then westward along a portion of the southern and then northwards along the western and then eastward along a portion of the northern boundary of premises No. 48, Indian Mirror Street and then southward along the western boundaries of premises Nos. 48-1 and 50, Indian Mirror Street and then across Indian Mirror Street to the south-western corner of premises No. 67, Dharumtala Street, then running north-eastwards along the northern edge of Indian Mirror Street to the south-eastern corner of premises No. 69, Dharumtala Street, and then northward along the eastern boundary of 69, Dharumtala Street to the point whence at first started.

Particulars of the scheme, a map of the area comprised in the scheme and a statement of the land which it is proposed to acquire may be inspected at the offices of the Trust, 5, Clive Street, on week days between the hours of 11 A.M. and 4 P.M. and on Saturdays between 11 A.M. and 2 P.M.

Copies of the above documents will be delivered to the applicants on payment of the following fees:-

### The Board of Trustees for the Improvement of Calcutta.

#### Notice under section 43 of Bengal Act V of 1911.

Scheme No. VIIIB (Extension of the present proposed Park in Scheme VIII) and construction of a 100 ft. road to the north of the Park joining the Circus with Darga Road.

THE Board of Trustees for the Improvement of Calcutta hereby give notice that a Street Scheme, namely, Scheme No. VIIIB (Extension of the present proposed Park in Scheme VIII and construction of a 100 ft. road to the north of the park joining the Circus with Darga Road) has been framed for the area bounded as follows:—

On the North—From a point on the north-east corner of the Darga at premises No. 15, Gora Chand Road, running eastwards along the southern edge of Gora Chand Road, to the north-west corner of premises No. 22, Gora Chand Road.

On the East-From this point southwards along the western boundaries of premises No. 22, Gora Chand Road, and premises Nos. 74, 73 and 72. Tiljala Road, and then to a point on the northern boundary of premises No. 21-1, Darga Road, about 85 ft, west from its north-east corner.

On the West—From this point northwards along the eastern boundary of No. 8, Kasaipara Lane, and thence westwards along a portion of its northern boundary to a point on the south-west corner of premises No. 5-2, Gora Chand Lane. Thence along the southern and eastern boundaries of the same premises to a point on its north-east corner. From this point northwards along the western edge of Gora Chand Lane to a point on it about 38 ft. north from the south-east corner of premises No. 19, Gora Chand Lane. Thence eastwards across Gora Chand Lane and along the southern boundary of premises No. 7-1, Gora Chand Lane, and southern and eastern boundaries of premises No. 10, Gora Chand Lane, to its north-east corner. From this point across and along the portion of a drain to a point on the south-east corner of premises No. 16, Gora Chand Road. Thence running northwards along the eastern boundaries of premises Nos. 16, 14, 15, Gora Chand Road, to the starting point.

Particulars of the Scheme, a map of the area comprised in the Scheme and a statement of the land which it is proposed to acquire may be inspected at the office of the Trust, 5, Clive Street, on week days between the hours of 11 a.m. and 4 p.m., and on Saturdays between 11 a.m. and 2 p.m.

Copies of the above documents will be delivered to the applicants on payment of the following fees:-

J. C. Roy, for Director of Agriculture, Bengal.

### DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 5th October 1921.

Summary.—During the week seasonable rain fell almost throughout the province. Preparatory tillage for spring crops and sowing of pulses continue. Weeding of winter paddy is progressing favourably in the western districts. Its prospects are expected to be good if the present state of weather continues during this month. The average price of common rice for the province has fallen by about 1.19 per cent. as compared with that

### RESOLUTION ON THE REPORT ON POLICE ADMINISTRA-TION IN THE BENGAL PRESIDENCY FOR THE YEAR 1920.

#### GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police.

CALCUTTA, THE 14TH OCTOBER 1921.

RESOLUTION-No. 3336Pl.

READ-

The Report on Police Admininistration in the Bengal Presidency for the year 1920. READ ALSO-

The report for the year 1919 and the resolution of Government recorded thereon.

- 1. Mr. R. B. Hyde held charge of the department as Inspector-General of Police till the 3rd June 1920, when he proceeded on combined leave. Mr. R. H. S. Hutchinson officiated for him during the remainder of the
- 2. The Military Police Battalion now known as the Eastern Frontier Rifles (Bengal Battalion), though without its full complement of military officers, was maintained in a state of efficiency and good discipline. The

Indian officers and men who served in the Indian Expeditionary Force returned during the year, and the Battalion is to be congratulated on the fine record of courage and endurance given to them by the Commanding

Officer under whom they served.

3. The sanctioned strength of the subordinate police rose from 23,051 to 23,852. The increase is due chiefly to the creation of additional appointments of sub-inspectors required to replace probationers under practical training in districts, and of constables for strengthening the reserve for leave and sickness. The enlistment of constables was not satisfactory during the greater part of the year, but recruits presented themselves in large numbers after the revised rates of pay were announced. It is noticeable that Bengali recruits formed 65'l per cent. of the total number, the

highest proportion so far recorded.

4. The most important feature of the year's administration was the question of improving the conditions of service, especially in the subordinate ranks, among some of whom dissatisfaction was bringing in its train a certain deterioration of morale. It was recognised that some improvement in pay and prospects was imperatively necessary, while financial conditions rendered an adequate solution of the problem one of considerable difficulty. After very careful consideration new terms, entailing very heavy expenditure, were finally sanctioned for the subordinate ranks, involving a substantial increase of pay and grant of other concessions, and constituting what were considered to be fair and reasonable prospects. The pay of inspectors was revised after the year ended. It cannot, however, be said that the dissatisfaction has entirely disappeared. There is a feeling among the subordinate officers that their emoluments are low as compared with those of other services of similar status, and they have made representations to Government to this effect. The question is now receiving further examination, but the financial difficulty remains in an acute form.

5. The health of the force showed no improvement, malarial fever and influenza causing much illness; in some districts the daily average number of absentees owing to sickness was very high. Better results may be looked for now that the increase in the leave reserve will give some relief from the strain of continuous duty, and the higher rates of pay will enable the lower ranks to provide themselves with more and better food. But there remain other factors adversely affecting the health of the force, e.g., the inadequate supply of cots and mosquito-nets and the defective buildings in which many officers and men are housed, the improvement of which is a slow process,

retarded by financial considerations.

6. A very satisfactory feature of the year's work is the increase in the number of officers and men who did specially good work for which they received rewards. On the other hand, discontent with the conditions of service unfortunately resulted in some instances in a decline from the necessary standard of discipline, and a consequent increase in the number of departmental punishments inflicted. The number of complaints instituted by private persons against the police showed a decrease, the number of officers and men who were found guilty of offences on such complaints being 128 out of a total force of more than 23,000. Of 49 civil suits instituted against the police, 24 were dismissed, one was decreed, and the others were

pending at the close of the year.

Varying reports have been received from districts on the work of the rural police, and the complaints of the inadequacy of the chaukidars' pay are general and well founded. In many districts the resignations on this account were numerous, while difficulty has been found in filling vacancies. The maximum pay is fixed by the Chaukidari Act in areas where that Act is still in force, and it is only where union boards have been established that a higher rate is permissible; the desirability of amending the Chaukidari Act in this respect is under the consideration of Government. Instances of specially good work have been brought to notice, and it is satisfactory that the percentage of chaukidars rewarded rose from 16.3 to 19.5. The number punished, however, also increased, though in several districts undue severity appears to have been shown.

The expenditure of the department increased from rupees 1 crore 15 lakhs to rupees 1 crore 31 lakhs in round figures. The increase is mainly due to the enhanced rates of pay, to the grant of ad interim allowances to ministerial officers, and for travelling and conveyance allowances. The expenditure on the Criminal Investigation Department was considerably reduced. Progress in building construction was slower, the amount spent lakhs. The report draws special attention to the dilapidated and insanitary condition of many police station buildings and staff quarters, and to the effect caused thereby on the health and discipline of the force. The adequate housing of the force has been for many years one of the urgent needs of the department, but the increased cost of building materials has stood in the way of any substantial progress in recent years. In the present financial situation, the Governor in Council fears that funds are not likely to be available in sufficient measure towards provision for improved buildings.

9. The total volume of serious crime was less than in the previous year, the decrease being most marked in offences against property, viz., dacoity, robbery, etc., and attributable in a large measure to the preventive measures which continue to be taken. Good work was done by the C. I. D. in dealing with organized and professional crime, of which the Inspector-General gives various interesting examples, and valuable assistance was given by it to the district police in combating outbreaks of dacoity. It is satisfactory to note that the co-operation of the public with the police in the prevention and detection of crime continued to manifest itself in certain areas, specially in Hooghly, where defence parties achieved considerable success. The system of station patrol boats for the prevention of crime in riverine areas has had good results, and was made permanent during the year. The problem of dealing with the habitual criminal has again been examined by the Inspector-General who favours the method of "preventive detection." The opinion of the Jails Committee on the question has now been received and is under consideration. The province was free from revolutionary outrages; no political significance is attached to two dacoities which are believed to have been committed by men of the bhadralok class. All detenus under the Defence of India Rule and state prisoners who were under restraint at the end of 1919, were released during the year; seven convicts in socalled political cases, whose conduct was satisfactory, were also released before the expiry of their sentences.

10. The increase in the burden of extra-departmental duties thrown upon the police is to be regretted, though the Legislative Council elections

and the census were special incidents entailing additional work.

11. The Governor in Council desires to thank Messrs. Hyde and Hutchinson for maintaining a high standard of administration during a year when adverse economic conditions and industrial unrest added to the difficulties of police work. He has also read with pleasure the list of officers commended for good work by the Inspector-General.

The report is an interesting one, particularly in the definite examples given of good work done. Owing to financial stringency the Department is at present severely handicapped, and the record of achievement is for that

ORDERED-That copies of the Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners

ORDERED-Also that the Resolution be published in the Calcutta Gazette.

By order of the Governor in Council.

J. DONALD,

Chief Secretary to the Government of Bengal (offg.).

# APPOINTMENT OF COMMITTEE TO CONSIDER AND REPORT WHETHER THE POSTS OF DIVISIONAL COMMISSIONERS MAY BE ABOLISHED.

### GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

DARJEELING, THE 7TH OCTOBER 1921.

### RESOLUTION-No. 222T.-R.

In pursuance of a resolution which was moved in the Bengal Legislative Council and accepted by Government on 30th August 1921, the Government of Bengal are pleased to appoint the following committee to consider and report as to whether the posts of Divisional Commissioners may be abolished with due regard to efficiency; and if their opinion be in the affirmative, to report as to the steps to be taken to give effect to such opinion:—

The Hon'ble Sir Bijay Chand Mahtab, K.C.S.I., K.C.I.E., I.O.M., Maharajadhiraja Bahadur of Burdwan, Member in charge of the Revenue Department

President.

- F. C. French, Esq., c.s.i., i.c.s., Member in charge of the Board of Revenue, Bengal.
- D. H. Lees, Esq., 1.c.s., Commissioner of the Rajshahi Division.
- J. Donald, Esq., c.i.e., i.c.s., Chief Secretary to the Government of Bengal.

Raja Manilall Singh Roy, M.L.C. Babu Surendra Nath Mallik, M.L.C.

Saiyid Nasim Ali, Esq., M.L.C. Babu Nibaran Chandra Das Gupta, M.L.C.

W. S. Hopkyns, Esq., o.B.E., i.c.s., Secretary to the Government of Bengal, Revenue Department Members.

Secretary.

ORDER.—Ordered that a copy of the Resolution be forwarded to all Members of the Committee.

Ordered also that the Resolution be published in the Calcutta Gazette.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal (offg.).

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION UNDER THE ASSAM LABOUR AND EMIGRATION ACT, 1901 (VI OF 1901) FOR THE YEAR ENDING THE 30TH JUNE 1921.

### GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT

Emigration.

DARJEELING, THE 4TH OCTOBER 1921.

### RESOLUTION-No. 213T.-R.

READ-

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901) for the year ending the 30th June 1921, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

THE most remarkable feature of the year under review in connection with inland emigration was the decrease in the number of recruits despatched to the labour districts.

- 2. Recruiting operations in Bengal were conducted as usual in the districts of Bankura, Birbhum, Burdwan and Midnapore, but the number of garden sardars employed during the year was only 248 as against 700 in the preceding year. All of them worked under the supervision of licensed local agents. The number of local agents' licenses issued was 12 as against 13 in 1919-20. The total number of emigrants recruited in Bengal was 86 as against 600 in the previous year. The largest number of recruits was from Midnapore, viz., 68. Conditions of recruitment in other provinces appear to have been similar, for the total number of emigrants from Bengal and other provinces embarking at Goalundo was 13,051 as compared with 50,989 in the preceding year. The decrease was mainly due to the depression in the tea industry.
- 3. No criminal case connected with emigration was reported during the year.
- 4. Rest-houses for emigrants were duly inspected and generally kept in proper sanitary condition. These rest-houses, which used to be maintained by different forwarding agents, have been taken over by the Tea Districts Labour Supply Association since the 31st August 1920.
- 5. Arrangements for river transport were satisfactory. Five deaths, of which two were due to cholera, were reported to have occurred among emigrants at Naihati. Of the 13,061 emigrants who arrived at Goalundo, nine died at the Goalundo hospital; two of these deaths were due to cholera. There was no death during the steamer journey to Chandpur among the 3,710 emigrants who embarked for the Surma Valley districts, but of the 9,341 emigrants who embarked for the Brahmaputra Valley, three died during the voyage, one of the deaths being due to cholera.
- 6. In connection with the transport of labour to Assam receipts amounted to Rs. 1,751 against Rs. 1,750 in the preceding year, while the expenditure fell from Rs. 22,720 to Rs. 22,373.

2164 SUPPLEMENT TO THE CALCUTTA GAZETTE, OCT. 19, 1921.

7. Major C. A. Gourlay, I.M.S., held the office of Superintendent of Emigration, Calcutta, up to the 19th February 1921, when he proceeded on leave. The thanks of the Governor in Council are due to him and to Lieutenant-Colonel Moses, who succeeded him, and also to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal (offg.).

### Calcutta Improvement Trust.

Notice under section 63 (5) of Bengal Act V of 1911 as amended by Bengal Act III of 1915.

Notice is hereby given that the Board of Trustees for the Improvement of Calcutta have applied to the Local Government for sanction to the plan of the Proposed Public Street No. XL (Chowringhee Place—Moti Sil Street Widening and Extension) which was originally published in the issue of the Calcutta Gazette of 8th December 1920.

C. H. BOMPAS, Chairman.

# DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 12th October 1921.

Summary.—During the week moderate to heavy rain fell in North and East Bengal; elsewhere the fall was practically nil. Preparation of fields for spring crops and their sowings are progressing. The prospects of winter rice are, so far, reported to be good except in the high land tracts of Western Bengal, where rain is required for its growth. The average price of common rice for the province has fallen by about 0.92 per cent. as is being given to recipients of relief in distressed areas.

REPORT OF THE HONORARY COMMITTEE FOR THE MANAGE-MENT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1920-21.

### NOTIFICATION.

Minister in charge : The Hon'ble Nawab Saiyed Nawab Aii Chaudhuri, Khan Bahadur, C.i.E.

No. 4096Mis.—The 26th October 1921.—The following extracts from the Annual Administration Report of the Zoological Garden, Calcutta, for the year 1920-21, and the Government letter No. 4094, dated the 27th October 1921, acknowledging the receipt of the report are published for general information.

J. A. L. SWAN, Secretary to the Government of Bengal.

THE Committee have the honour to submit their report for the year ending 31st March 1921, containing, as in former years, among other items-

- (I) The Superintendent's report upon the Zoological collection.
- (2) Abstract of accounts of ordinary receipts and expenditure.
- (3) Monthly returns of visitors and gate receipts and a list of donors and their donations.

The Committee consisted of-

### President :

The Hon'ble Sir C. J. Stevenson-Moore, K.C.I.E, C.V.O., I.C.S. The Hon'ble Mr. Justice P. L. Buckland, F.Z.S., from 29th March 1921.

### Vice-President:

The Hon'ble Mr. Justice P. L. Buckland, F.Z.S., till 29th March 1921.

### Honorary Secretary and Treasurer:

W. K. Dods, Esq., from 7th April 1920.

### Members of the Committee:

### Nominated-

R. D. Mehta, Esq., C.I.E.

Dr. Nelson Annandale, B.A., D.Sc., C.M.Z.S. (resigned on 11th December 1920).

W. R. Gourlay, Esq., C.I.E., I.C.S.

H. J. McIntosh, Esq.

Nawab Sir Asif Quadr Saiyad Wasif Ali Mirza, Khan Bahadur, Mahabat Jang, Nawab Bahadur of Murshidabad, K.C.S.I., K.C.V.O.

G. Girard, Esq., I.S.o., F.R.H.S.

The Hon'ble Sir Bijay Chand Mahtab, K.C.S.I., K.C.I.E., LO.M., Maharajadhiraja Bahadur of Burdwan.

Shirley Treamearne, Esq.

David Ezra, Esq. Nawab A. F. M. Abdur Rahman, Khan Bahadur. Lieutenant-Colonel Sir L. Rogers, K.T., C.I.E., M.D., I.M.S.

C. W. E. Cotton, Esq., C.I.E., I.C.S. Lieutenant-Colonel E. H. Brown, I.M.S (retired), M.D., D.P.H., F.R.C.S.E.

H. F. Yeoman, Esq.

Surendra Nath Laha, Esq.

Dr. B. L. Chaudhuri, D.sc.

G. C. Mandal, Esq.

Satya Charan Laha, Esq., F.Z.S.

W. Kirkpatrick, Esq.

### Ex-officio-

The Commissioners of Divisions in Bengal,

The Executive Engineer, 2nd Calcutta Division, Public Works Department.

The Sanitary Commissioner, Bengal.

The President of the Asiatic Society of Bengal.

The Director of Public Instruction, Bengal.

The Natural History Secretary of the Asiatic Society of Bengal.

The Director of Land Records, Bengal.

The Superintendent, Civil Veterinary Department, Bengal.

The Professor of Comparative Anatomy and Zoology, Medical College, Bengal.

The Superintendent of the Royal Botanic Garden, Sibpur.

The Chairman of the Calcutta Corporation.

The Principal of the Bengal Veterinary College.

### Resignation-

On the 29th March 1921 the Hon'ble Sir C. J. Stevenson-Moore, K.C.I.E., C.v.o., I.C.s., resigned his appointment as President of the Committee of Management of the Garden. In accepting his resignation the Committee of Management recorded the following resolution:

"It was unanimously agreed that an expression of the Committee's warm appreciation of his services as President should be minuted in the proceed-

Dr. N. Annandale, B.A., D.Sc., C.M.Z.S., resigned his membership owing to his absence from Calcutta on long leave.

### Appointment-

The following new members were appointed during the year:-

Dr. B. L. Chaudhuri, D.Sc.

G. C. Mandal, Esq. Satya Charan Laha, Esq., F.Z.S.

W. Kirkpatrick, Esq.

### STAFF AND ESTABLISHMENT.

Rai Bijay Krishna Basu Bahadur continued in charge of the Garden as Superintendent throughout the year and Babu Somadev Ganguli as Assistant Superintendent.

The following is a list of the superior staff of the Garden at the end of 1920-21 :--

Superintendent.

Rai Bijay Krishna Basu Bahadur, C.M.Z.S.

Assistant Superintendent.

Babu Somadev Ganguli.

Store-keeper.

Babu Jugal Kishore Roy.

Overseer.

Babu Niranjan Mukherji.

Clerk.

Babu Tarak Chandra Chaterji.

Gate Clerk.

Babu Doyal Chandra Dass. The following is a list of the menial staff of the Garden at the end of 1920-21:--

1 Salutri. 14 Gardeners. 1 Jamadar. 3 Sweepers. 8 Durwans. 1 Chaprasi. 20 Keepers. 1 Carpenter. 2 Bhistis. 2 Cartmen. i Cook. 1 Syca. 1 Head Gardener. 1 Seythe man.

1 Night-watch.

In addition a number of temporary men were engaged during the year.

### STRUCTURAL ALTERATIONS AND IMPROVEMENTS.

The principal alterations and improvements effected were with regard to :-

The Southern Extension .- The conflict between the reluctance of the Committee to cover this area with fences and sheds and their desire to make the most effective use of it for a display of exhibits and the relief of the enclosures in other parts of the Garden has been reconciled by

grouping animals and birds of different genera with no restrictions as to freedom of movement over the entire space. This has afforded considerable interest to observers who have had the patience and opportunity to watch the conduct of the inmates towards each other. It may be necessary to sub-divide the area at least once as inter-breeding between different species gapped he permitted and this places a severe restriction more the species cannot be permitted, and this places a severe restriction upon the number which can be accommodated.

The substitution of a wide ditch, of a depth which prevents wading across, for fences and railings, takes advantage of the disinclination of animals to jump out of water, gives an unobstructed view to the visitor and is a form of enclosure which is rarely found in the Zoological Gardens

of Europe and is entirely new to India.

Remodelling of the Murshidabad House.—The condition of the central dome and the wooden circular roof of the Murshidabad House had so deteriorated that it had become necessary to remove and rebuild them entirely on improved designs. All woodwork has been taken away and an iron frame with galvanized wire work and Rauigunge tiled roof have been substituted. The floor of the interior cages has been resurfaced and made rat-proof. From a sanitary point of view also the structure is now greatly improved.

Segregation Shed.—A well-raised and airy shed, with three compartments having a common exercise paddock attached, was erected in the Begunbari for the accommodation of sick animals.

The Hermitage.-The flooring of some of the rooms had to be resurfaced, and a red polished patent stone flooring was provided. The electric installation also required renovation which has been done.

### GENERAL ANNUAL REPAIRS.

The general annual repairs to the buildings of the Garden were carried out departmentally as usual and painting of fences and iron-work to a considerable extent was done during the year.

### VISITORS.

It is satisfactory to report that there was a considerable increase in the number of paying visitors during the year not with standing prevailing economic conditions. The turnstile records indicate a total of 842,616 visitors and show an increase of 127,577 over the figures for 1919-20.

Corresponding with the increase in the number of visitors there was an increase in gate receipts of Rs. 13,321-12. The following is a comparative

statement of visitors and gate receipts for the last three years :-

| Year.   | 100  |       | Visitors. | Receipts. |
|---------|------|-------|-----------|-----------|
|         |      |       |           | Rs. A.    |
| 1918-19 |      |       | 635,497   | 48,490 0  |
| 1919-20 |      | 100 m | 715,039   | 54,524 2  |
| 1920-21 | <br> |       | 842,616   | 67,845 14 |

A large number of children under four years of age, and school children in charge of their teachers were admitted free. On the days of the Fancy Fair, when no individual charge is levied, it is estimated that about 18,000 visitors entered the Garden. In addition 42,698 persons visited the Garden on free days, of which a list, with the number of visitors on each, will be found in Appendix C.

### FINANCE.

The financial condition of the Garden is on the whole satisfactory in spite of the high cost of food grains. By curtailing the running expenses of the Garden in its executive department and the strictest economy in other directions, the Committee have been enabled to set aside a substantial sum, included in the item shown as expended on original construction, in order to repair and improve some of the older buildings and make other permanent improvements designed to ameliorate the conditions under which the animals are kept. These will be taken in hand whenever the cost of materials is so reduced as to bring them within the means at the disposal of the Committee.

The amounts of income and expenditure are summarised in Appendix A.

### GARDEN.

The usual work in the general maintenance of the Garden and in the care of lawns, walks and roads was carried on as usual throughout the year. The floricultural department was carefully attended to and flowering annuals were successfully exhibited at the Annual Flower Show of the Agri-Horticultural Society.

The Committee desire to express their thanks to the Corporation of Calcutta for their continued generosity in remitting the consolidated rates in respect of the Gardens.

The thanks of the Committee are also due to those ladies and gentlemen who have added to the Zoological collection by donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species of animals was already sufficiently well represented, or owing to want of accommodation.

The Committee also desire to express their thanks to the Railway and Steamer Companies for the conveyance of animals belonging to the Garden free of charge.

P. L. BUCKLAND,

President.

W. K. Dods.

Honorary Secretary.

### SUPERINTENDENT'S REPORT.

I have the honour to submit the following report on the existing condition and the progress of the Zoological collection.

The following comparative table shows how the various collection of specimens in the Garden has stood during the last 4 years:—

|         |  |          |                                    | The second second |
|---------|--|----------|------------------------------------|-------------------|
| Year.   |  | Mammals. | Birds.                             | Reptiles.         |
| 1917-18 | ***                                      | 316      | 2,029                              |                   |
| 1918-19 |  | 299      |                                    | 199               |

### ACQUISITIONS.

The high standard of the collection generally has been maintained by the addition of many interesting foreign animals and all available space is filled to its utmost capacity.

The most important purchases during the year are five zebras and 11 gayals. Other purchases for the year included—

| 1 Gold-leaf monkey.     |                   | 1 8:         |
|-------------------------|-------------------|--------------|
| 3 Purple-faced monkeys. |                   | 1 Siamang.   |
| 2 Negro langurs.        |                   | 4 Cathears.  |
| 4 Temminek's Tragopan   |                   | Markhors.    |
| pheasants.              | Street April 1985 | White cranes |

Among the important gifts deserving special mention were a pair of African lions and a pair of tigers presented by His Highness the Moharao Saheb of Kotah, 2 lion cubs presented by His Highness the Raj Saheb of Wankaner, one tiger presented by the late Chief of Bamra, one tiger presented by Madan Mohan Lall., Esq., one tiger cub presented by Master Suresh Singh of Udaipur, and one white-fronted goose presented by Babu Udit Narain Singh.

The following animals were received in exchange from the Zoological Society of London :-

- 2 Fallow deer.
  - 2 Common badgers.
  - 2 Common foxes.
    2 Anubis baboons.
    1 Mandrill.

  - 1 Mandrill.
  - 1 Red and blue Macaw.
- 1 Yellow-fronted n 1 Blue-fronted Amazon.

  - 1 Orange-winged "
    - 1 Blue-crowned conure.
  - 1 Golden-crowned "
  - 2 Mute swans.

The following animals were received in exchange from the Zoological Society of Scotland :--

- 1 Sea-lion.
- 2 Brown bear cubs.
  2 Gannets.
- 9 Mute swans.

- 4 Canadian geese.
- 2 Grey-lag geese.
  - 1 Buzzard.

Captain Macdonald of SS. "Janus" brought from Australia the following animals :-

2 Nail-tailed kangarons.

1 Short-tailed wallaby.

### APPENDIX A.

No. 4094, dated Calcutta, the 27th October 1921.

From-J. A. L. SWAN, Esq., I.C.S., Secretary to the Government of Bengal, Department of Agriculture and Industries (Miscellaneous Branch),

To-The Honorary Secretary, Zoological Garden, Calcutta.

Minister in charge : The Hon'ble Nawab Salyid Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.

I am directed to acknowledge the receipt of the Report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1920-21, forwarded with your letter No. 56, dated the 26th September 1921, and to convey the thanks of the Government of Bengal (Ministry of Agriculture and Public Works) to the Committee for their management of the Gorden during the year

2. The acknowledgments of the Government are due to the ladies and gentlemen named in Appendix D to the Report, who presented the Garden with various animals during the year.

Decree D

BENODE BEHARI RAY,

The 26th October 1921. for Executive Engineer, Dacca Division.

### ADDENDUM.

No. 819T.-L.S.-G.—The 22nd October 1921.—Add the name of Sahebzada Muhammad Sultan Allam, Chairman, Tollyganj Municipality, below that of Babu Chuni Lal Banerji, Vice-Chairman, Kamarhati Municipality, in Resolution No. 3945L.S.-G.. dated the 25th August 1921, constituting the Riparian water-supply committee, which was published in page 1782 of the Supplement to the Calcutta Gazette of the 31st August 1921.

L. S. S. O'MALLEY,

Secretary to the Government of Bengal

### DEPARTMENT OF STATISTICS, INDIA.

THE PARTY OF THE PARTY AND

### CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, i.e., by rail, river, canal, road, and sea, of the Calcutta block\* in certain selected articles during the five months, April to August, 1921, as compared with the corresponding period of 1920 and 1919. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

### General Summary.

Imports.—The imports of rice, including paddyt, into Calcutta by rail, river, canal, road, and sea (coastwise) during the five months, April to August, 1921, amounted to 6,455,000 maunds, as against 4,471,000 maunds in the corresponding period of the preceding year,—an increase of 1,984,000 maunds or 44 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 12 per cent in the imports of coal and coke (48,576,000 maunds as against 55,270,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 16 per cent, the total value amounting to Rs. 3,90 lakhs as against Rs. 4,66 lakhs in 1920. The quantity of indigo imported during the five months, April to August, 1921, decreased from 3,124 maunds last year to 644 maunds. The imports of raw jute amounted to 1,161,000 bales as against 1,732,000 bales,—a decrease of 571,000 bales or 33 per cent. The importations of gunny bags also showed a decrease to 112 million bags from 209 millions of gunny bags also showed a decrease to 112 million bags from 209 millions in the preceding year. The total imports of oilseeds (linseed and rape and mustard seed) decreased by 361,000 maunds, or 9 per cent, from 3,978,000 maunds to 3,617,000 maunds and those of sugar decreased by 1144,000 maunds, or 34 per cent, from 425,000 maunds to 281,000 maunds. The imports of tea increased from 897,000 maunds to 917,000 maunds or by 20,000 maunds or nearly 2 per cent.

Exports.—The value of the exports of cotton piecegoods, foreign, from Calcutta\* by all routes during the five months, April to August, 1921, decreased by 21 per cent from Rs. 10,28 lakhs to Rs. 8,16 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 591 million bags to 409 millions, but the shipments of gunny bags to other Indian ports increased from 19 to 24 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 2,310,000 maunds to 2,551,000 maunds, or by 241,000 maunds or 10 per cent.

The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

<sup>(</sup>a) One maund of paddy is equivalent to 25 seers of rice.

The value rates are fixed quarterly, and the monthly valuation is made at the value rates of the preceding quarter.
 Excludes imports into the milis outside the Calcutta block, which are 742,068 baies, but includes imports into the Kidderpore Docks, namely, 21,647

bales.
(a) Including gunny cloth, 2 yards of cloth = 1 bag.

. . . .

#### TABLE IV

Imports of certain Articles into the Port of Galcutta by Sea (Foreign and Goast-wise) in the five months, April to August, 1921,
